BROOKLYN RAILROAD WAR.

All the Police Reserves are Called Out to Guard Lexington Avenue.

[New York Sun.]

President W. Fontaine Bruff of the Brooklyn Elevated railroad company having declared that, notwithstanding the arrest of 51 laborers and his own arrest twice in succession, he would have 1500 laborers in Lexington avenue, Brooklyn, yesterday, to continue the preparations for the destruction of his road. Superintendent Campbell ordered out all the reserves in the Brooklyn police department, and had a mounted officer stationed as courier, in the event of Mr. Bruff's undertaking to renew the work. There were about 300 laborers awaiting Mr. Bruff's orders at noon yesterday. They were watched by Acting Police Captain Dunne, of the Broadway police and twenty officers. Mr. Bruff arrived on the spot in his carriage. Capt. Dunne told him that he (the captain) would drive away all the men who attempted to disturb the pavement, and would arrest any one persisting in the offence. The laborers were organized into gangs, and were given tools to begin work at four or five different points along the avenue. Capt. Dunne instructed his officers to act promptly as soon as the men began to use their tools on the pavement. Mr. Bruff drew off one of his kid gloves, and, stepping down at one of the places where his men had previously broken the ground, picked up a cobbler stone, and asked Captain Dunne whether he would arrest him for that. The captain made no reply. Mr. Bruff then told the laborers that as the police intended to use force to drive them away if they began work, it would be best to wait the determination of the cases before Justice Semler, which are to be examined to-day. Mr. Bruff hoped that he would be able to put the men to work to-day after the examination. The men then formed into line, and, passing the contractor's office, received twenty cents each.

The general foreman of the laborers says that there are over 2000 men enrolled and ready to go to work on the road. A consignment of granite for the pillar posts reached Brooklyn yesterday.

Some Home Truths.

[New York Nation.]

The stalwart Republicans will have it that the party they have been experiencing during the last two years are caused by the Hayes lemons disagreeing with them. A writer in the Philadelphia Evening Telegraph, signing himself "J. W. F.," and whose figures we have already quoted, erroneously supposing him to be Colonel Forney, keeps, however, showing them in the most remorseless way, by mathematical demonstration, that it is the old Grant whiskey which has disordered their system, and that it will be little short of madness for them to take another pull at the bottle by way of relieving themselves. In a recent letter he shows that from 1872 to 1874 the Grant regime kept handing Republican states over to the Democrats or cutting down Republican majorities with the most deadly efficiency. In 1872, for instance, the Republican majority in Massachusetts was 74,000; in 1874 the Democrats carried the state by 7032 majority. In New York the Republican majority in 1872 was over 51,000; in 1874 the Democratic majority was over 50,000. In Pennsylvania Hartman was elected in 1872 by over 34,000 majority; in 1874 the Democrats elected the lieutenant-governor by 4679 majority. In Ohio the Republicans carried the state in 1872 by over 34,000 majority; in 1874 the Democrats carried it by 17,202 majority. In Illinois the Republicans carried the state in 1872 by 63,420; in 1874 the Democrats carried it by 30,606. Like results were reached in all the other states north and south in spite of "the steady hand at the helm." So much for the effects of whiskey.

Too Much Politics, Too Little Work.

[Interview with a former Southern editor.]

What is the south's hope? The only hope for the south is in immigration and capital, and that must come from and through the north. The foolish utterances of our so-called representative men have kept the north inflamed and incurred your hostility. The form of civilization that winks at personal violence (duelling) as a redress for personal wrongs is another obstacle. The Cox-Alston and Buford-Ellet tragedies are too numerous. Then the many attempts at repudiation by states have helped to ruin our credit and shut out capital. Immigration will never go where life is insecure; nor capital where repudiation is advocated. That's the trouble, in a nut-shell. Too much politics and too little work.

Canadians are immigrating to the United States in unusually large numbers, and the immigrants are said to be of a much superior quality to those who have in past years been in the habit of coming to tell in New England factories, live with Chinese frugality, and then go back to Canada with their accumulated earnings. The people who through the trains from beyond the border are mostly intelligent and well-to-do farmers and mechanics, and are bound for the far west, where they intend to settle permanently. As Canada is but thinly populated she can ill afford to lose these sturdy husbandmen and artisans. The Canadian press seems to be entirely ignorant of the exodus.

A RICH COUNTRY.

The Salmon River Mining Excitement vs. Leadville.

The reports which come in from what is called the Yankee Fork or Salmon River Mining District, says the New York Engineering and Mining Journal, in Idaho, are of the most glowing description. The ores, for the most part silver and gold bearing quartz, are said to be very high grade, and to occur in large veins. The rock, however, is generally very hard, and the ore somewhat refractory, so that it will probably require the expenditure of a large amount for opening and working the mines. A great many miners and speculators are going from Utah to this new bonanza; indeed, it is apparently more popular among the miners than is the famous Leadville, which attracts very little attention here. The chief use of Leadville to the mining men of Salt Lake District seems to be in the hope that it may bring them a new railroad—the long wished for opposition to the Central Pacific. The Atchison, Topeka and Santa Fe is looked to for this; but the extension of that road from Leadville to this point would only be a stop in a through line aiming at some point on the coast, north of the Gulf of California, if not at San Francisco itself, and as it is generally understood that Guaymas, Mexico, is the present objective point of the Atchison, Topeka and Santa Fe road, there seems little encouragement for the hope of the Salt Lake miners. Leadville is generally supposed to be greatly overestimated, and the old vein-miners prefer Idaho or Montana, or Arizona to the deceptive bunches of a horizontal deposit—especially where lead is looked to for some of the profit. The Utah experience with lead ores has not been uniformly happy, so the gold and silver ledges of Idaho and Montana are attracting a good deal of the floating population of Utah; and from the information attainable, their mines will attract great attention in the near future.

Another Invention.

[N. Y. Sun.]

The latest Boston medical idea is an elaboration of the blue glass theory. Sunlight is thrown into water through colored lenses, and thus curative qualities are imparted to the water. The inventor says so, at least. "The sun's rays," he explains, "are composed of actual substances with their exquisite and wonderful chemical powers, and, aided by spectrum analysis, I have been able to give the leading elements that compose each color. Each color has its own distinct power to heal. Red, orange, and yellow are warm colors, and directly exciting in their nature, while blue and violet are soothing. His manner of applying these remedies is as follows: "Health comes from the equilibrium of colors in the human system, and whenever any one color is so much in excess as to produce disease, harmony must be brought about by finding the color which is its chemical affinity. Thus, if a person abounds in redness, as in red hair and flushed skin, he needs blue light. Whenever the blue prevails too much, so as to give blue veins, blue finger nails, and a pale, cold condition, the warm red and orange light is needed. When a person has too great a nervous activity, the yellow, together with some red elements of his system, are too active, and he needs the violet and blue elements of sunlight to harmonize his forces and act as delightful sedatives." Converts to this new school of medicine suspend colored lenses over bowls of water and drink the warmed fluid.

Silver State District.

[Silver State.]

Steve Terrell who has been prospecting in Silver State district for the past week, returned last evening. He brought some fine specimens of ore from a ledge discovered by him about six miles north-west from Lewis Hill. The ore is entirely different from that found in the Silver Hill, and other ledges in Lewis Hill. It carries considerable galena, and is considered rich in silver.

Federal Circuit Judge Hughes decides that Virginia has the right, under the constitution, to make and enforce such laws regulating the marriages of her citizens as she sees fit. Unless the supreme court reverses this decision, colored Mr. Kinney and his wife will spend the first five years of their wedded life in the Virginia state prison.

Dr. Mintie's Nephreticum.

Dr. Mintie's Nephreticum works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back and loin are cured when all other medicines have failed.

See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicine; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."

Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephreticum as the best Kidney and Bladder Remedy before the public."

All Druggists keep these medicines.

For all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills.

For Biliousness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills.

For Fever and Ague, Use Dr. Mintie's English Dandelion Pills.

Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect cures in all troubles for which they are recommended.

PROOFS

One measure of intellect is the amount and kind of evidence necessary to establish conviction. A great many men hear a scrap of evidence in a case, and on that form their opinions, and all after study and thought are for the simple purpose of strengthening it. They do not investigate any matter for the sake of the truth, but only for the argument. They are not in a state of mind to receive the truth when they see it. They are aptly called opinionated, and whether from phrenological peculiarities or natural stupidity, they are unable to weigh, investigate and decide by the evidence. Such men place enormous value upon the fact that they really and sincerely believe, themselves, the doctrines which they have become possessed of. Between this outside limit, next to the doukey and the man at the other end of the line next to God—who is of the judicial frame of mind, whose mind is like a sheet of white paper, on which may be written all the evidence, who reasons from cause to effect, lies every form and degree of credulity. Men who are influenced by every variety of circumstance and argument. The breakfast they eat in the morning settles the question for everything that comes up, with some men. What a friend says, what they have read in some newspaper, or what their mother told them, steps some folks' minds to the truth as tight as an oyster. They may have only got hold of a scrap of the evidence in the case, they may only look at one little corner of it, and very few of them look at more than one side of anything, yet they are as firm, indeed, much firmer in their beliefs than the man who wastes the midnight oil in study. The small mind is easily made up and bubbles and rattles when an attempt is made to turn it, like a small stream. A chip will change it or a falling cloud and any chance send it wide of its course. The river sweeps on its way in the true channel unless systematic work compels it to change; and it should be the same with men. They, speaking by the strict letter of reason, should change their minds just as soon as the evidence, by reason, of weight and value, turns the scale and not before. Human passions and prejudices are so strong, however, that men will be many centuries in making any perceptible change in their ability to decide on proofs alone.

EDITORIAL NOTES.

The negro exodus to Kansas has about stopped, and many of the immigrants who went there are returning to the cotton fields they abandoned. The result is just as we anticipated. Kansas is no place for the plantation bred darkey, and it did not take him long to find it out. It is purely an agricultural country, and is only suited, as yet, to the intelligent, industrious pioneer. The influx of a large number of ignorant, unskilled, dependant laborers could only result in want and suffering. Had the negroes been skillful artisans, they could only have gotten employment by underworking white mechanics, and had they done so there would, very likely, have been a cry in Kansas that "Sambos must go."

The Reno papers say that a petition is being circulated for the pardon of William Madden, recently sentenced to five years in the state prison, for robbing William Luke. What's the matter? Was his sentence unjust? Was he innocent? What did you go to the trouble and expense of arresting and trying him for if he was not guilty? What a farce; pardon him out of state prison before he even gets into it. Please explain.—Gold Hill News.

On the day that Madden and Gardner were sentenced, Gardner got up in court and proclaimed Madden innocent of the crime, declaring that himself and another party committed the robbery. This, with the fact that Madden was convicted solely on circumstantial evidence, is why the petition is being signed.

The San Francisco Chronicle has opened its guns upon Kearney. It is

making a characteristic fight. Instead of attacking him in labored editorials, it merely holds him up to ridicule, and humorously exhibits him as the profane, ignorant ass that he is. The fight will be watched with interest, as the Chronicle did more to make Kearney than any other one cause. The chances are that Denis will be effectively set on this trip.

From present indications there is an alliance contemplated between the Chronicle's new constitution party and the Democrats in California, for the purpose of carrying the election this fall. As the Republicans cannot combine with Kearney, the prospect looks very gloomy for the state giving a Republican majority.

The Cedar Rapids Republican wants to know what has become of that original Hayes man, who was so numerous a year or two ago? We want to see him. Not to overwhelm him with thanks, but to say appreciatively: "We might have done worse, sir; very much worse!"

The proceedings in congress indicate that the Warner-silver bill will be killed or amended out of all shape in that body. The best that can be said of it is, that it deserves to die, for it is an impotent attempt to regulate values and the laws of commerce by legislative enactments.

Incendiarism at Emerald Bay.

A letter to the Carson Tribune contains the following:
On Saturday last, the 17th inst., the house at Emerald Bay, with all its contents, was destroyed by fire. Jack Sullivan, known as "Sailor Jack," the man who for so long has had charge of the property, was at Tahoe City, where he had taken a party. On his return he stopped at McKinney's for dinner, where he met a fellow dressed in his (Jack's) best clothes. He immediately seized the man by the throat and took him on board his row boat and carried him back to the Bay. Yesterday he was brought to this place and had an examination before justice Goodrich, who placed him under \$4000 bail, which he failed to raise, and he will be sent to Placerville jail to-morrow to await the action of the next grand jury. His name is Isaac Pinsonneault, a Frenchman, of sandy complexion. He said: "I was walking around the lake in search of work. When I got to the Emerald Bay house I was tired and cold. I found the house locked. I effected an entrance through the window, built a fire in the chimney and then sat down to warm. I soon discovered that the roof of the house was on fire; I ran out and tried to stop it but could not; then I got back into the house and took out with me through the window a coat, two woolen shirts and a spy-glass, and left the house burning and walked to McKinney's." Where he unfortunately (that is for him) met Jack. The house was the property of Ben Holliday.

Some seventy-five tons of ore extracted from the Silver-Hill-end of the Waller Ditch workings, have been reduced during the past week. The yield has not been made known as yet. There is quite a large quantity of first-class ore in sight, and if it can be made to pay the work of extraction will be prosecuted vigorously.

The statement having got abroad that there were some mechanics working at Suto who did not receive \$5 per day, a committee of the Mechanics' Union of Lyon county have investigated the matter, and ascertained that all mechanics employed at Suto have received \$5 per day since the organization of the Union. Prior to that date, however, many mechanics received only \$4 per day.

JOTTINGS.

John Sunderland is building a brick shoe shop in the rear of his store.

The clerk of the weather got up in a better humor this morning than he has for some time.

J. T. Benham is rushing up the second story of the Steele and Becker block.

The water in the Truckee is at a lower stage than it has been for months.

Judge Bewker is having the transoms over his office doors lettered with his official titles.

A bunch of keys was picked up on Fourth street this morning. The owner can get them by calling at this office.

A competent dry goods salesman can get employment by applying at the store of Michael & Levy on Commercial Row.

The fishing season is about over along here. The enthusiastic sportsman, who a fishing goes now days, generally meets with the proverbial fisherman's luck.

Hayden & Shoemaker's addition, on the south side of the river, has improved very much of late. A number of residences have been erected, and other improvements made.

A Remarkable Case.

Thomas Hitehook is mending slowly. While he is not entirely out of danger, he is doing very well, and the chances of his recovery quite hopeful. In fact it is almost certain that he will get well. His case is a remarkable one, and one that has upset theories and given the lie to symptoms and appearances. The proportion of men who recover from the amputation of legs above the knee is less than twenty per cent., and in Hitehook's case the chances were infinitely less. His thigh was crushed to a pulp, and he was for hours without attendance. When he received it the limb was badly swollen and fearfully inflamed. His blood, too, was disordered, and everything seemed combined to render his case hopeless. Surgical skill appeared to be of no avail to help him, and medical science condensed his span of life into a few hours. He was even told that he must die. But he never gave up, never ceased to cling to life. He lingered on and on, seeming to live by the sheer force of will, until he finally began to mend slowly and get stronger. A tough seige lies before him yet, but he is not likely to weaken now. One cannot help but admire the indomitable pluck that bore up so bravely in the face of what appeared to be certain death, and which ninety-nine men out of a hundred would have succumbed to.

THE LADIES' FAIR.

A Large Attendance-The Affair a Financial Success.

The fair and festival given by the ladies of the Methodist society for the benefit of the church commenced at the pavilion yesterday evening. Notwithstanding the unfavorable weather, the attendance was quite large, fully 300 being present. The exercises consisted of a musical concert, tableaux and declamations, all of which were excellent, and were duly appreciated. The sales were very satisfactory, and the affair a general success. Tables were arranged as follows: Fancy table—Mrs. McKelvey, Miss Maud Johnson, and Miss Edith Vallanough. Flower stand—The Misses Loomis, Miss Tallman, and Miss Mosher. Ice cream—Miss Emma Crocker and Miss Carrie Sessions. Strawberries—Miss Crockett and Mrs. C. W. Jones. Lunch table—Mrs. Marsh, Mrs. Stienner, Miss Stienner, and other ladies. The post-office was conducted by Miss Ada Tilton, Miss Mary Marsh, Miss Jennie Hill, and Miss Mary Stienner. Miss Jessie Barnes presided as "Rachel at the Well," in Oriental costume, assisted by Miss Leona Raynolds and Miss Smith. Mr. Laycock, with a number of lady assistants, conducted an art gallery very successfully. To-night a much finer programme is prepared. All those who want seats must come early. Seating capacity for 300 is arranged. The hall is tastefully decorated, and every one made welcome. No one is importuned to buy, and no exorbitant prices charged for anything.

Town Order No. 8.

SECTION 1.—Any person or persons who shall keep or rent any house of ill-fame, hurdy-house or house of prostitution on the alley leading from Virginia street to Center street, and known as "Douglas avenue," shall be deemed guilty of committing a nuisance, and shall, upon conviction thereof, be fined in the sum of not less than \$100, or be imprisoned in the county jail not less than fifty days. I hereby certify that the foregoing is a true and correct copy of the town order No. 8 passed by the board of county commissioners of Washoe county, Nevada, this 17th day of May, 1879. Witness my hand and the seal of said board of county commissioners this 17th day of May, 1879. (SEAL) MARK PARISH, Clerk board of county commissioners.

Boots and Shoes for the Million. When one buys boots or shoes it is desirable to have a large stock to select from, and a stock that is first class. Tom Barnett has such a stock. All kinds of gents and boys boots and shoes are comprised in it. He has also, an immense assortment of ladies boots, shoes, gaiters and slippers of every style and make. Besides, he has a full line of hats, caps, hosiery and other articles, also a large number of trunks, valises, etc. The stock is full in every department, and has been handsomely arranged in Mr. Barnett's Store on the corner of Commercial Row and Virginia street. His prices are moderate, and he guarantees to fit any kind of a foot.

War of the Wash Houses.

There was a lively row near the pavilion this morning between two Chinese washmen. It appears, as the reporter learned from one of the belligerents, that the washmen have a compact among themselves, by which each one is bound not to wash for anybody who owes another washman a bill, until the bill is paid. One of the combatants had washed clothes for a man who owed the other Chinese man for washing. The aggrieved Celestial made an assault on his countryman, and proceeded to loosen up the hide about the roots of his cue. Several more Chinamen rushed to the scene of action, and finally adjudicated the matter with much heathen profanity.

Fire Last Night.

About 8 o'clock yesterday evening the light goods in Miss Harney's show window caught fire from a gas jet, and soon sprang into a considerable blaze. Some one threw a bucket of water on the flames, which were extinguished by Herman Thyges with a blanket. When the alarm was given some fellow with very little sense, or maliciously inclined, threw a box against the window, breaking out the glass. The articles in the window were completely ruined. The loss amounts to about \$300, covered by insurance.

Selling Whiskey to Indians.

Yesterday Mr. Lewis saw a man giving a squaw a bottle, and thinking he was selling them whiskey, notified Sheriff Walker, who arrested him. As no positive proof of his guilt could be obtained, the fellow was released. Just such cases as this is what makes the tar bucket used. Although morally certain that a man is guilty, it seems an utter impossibility to get sufficient proof to base a conviction on.

I. C. of R. C.

The following officers were installed last evening by Mrs. D. A. Weiler, G. S., assisted by Dr. Coon, G. L., of Morning Star encampment No. 3, of Fratt. Town: Mrs. C. Ray, E. C.; R. A. Bryant, E. Coon; L. D. Ray, S. C.; Miss E. Bryant, Sec. of M. S. Morgan, Treasurer; Wm. Morgan, F. S.; H. Heeney, Cap. H.; H. Douglas, J. C.

PERSONAL.

Sam Hilliard is very sick with catarrh in the head. Mr. Berry, of the firm of Manning & Berry, came up from the Bay city yesterday. Mr. Fisk, of the Eureka Leader, took the afternoon train to-day for Carson and Virginia. Mrs. O. H. Sheets arrived yesterday from Phoenix, Arizona, and will spend the summer in Reno with her son, Dr. H. C. Sheets.

Isaac L. Requa, superintendent of the Chollar Potosi mine, went through to Virginia on the lightning train this morning.

Miles Finlen, one of the Comstock's Muldoons, and a large wood and coal dealer, was down from the big lode to-day in a buggy.

R. H. McDonald, at one time manager of Virginia branch of the bank of California, is registered at the Lake house.

H. H. Blake, agent for the Hall Safe and Lock Co., is confined to his hotel in Carson with pneumonia. He is improving, however.

Plumas Jub-Jabs.

From the National, May 17th.

Strike in gravel in the neighborhood of Sierra City, and a big excitement is resulting. Eight dollars to the wheelbarrow-lead is reported.

The vote in Plumas was very light, as shown by the official count in another column. The majority for the constitution was 174, and the total vote was 890.

The stage men only run theirsleighs a short distance now on the Oroville road. The wagon goes to Grizzly Creek on the down trip, and comes past Walker's Plains coming this way.

Bower's Newton claim still "pans out" in paying quantities. Last week the result of "two picks" was twenty-five ounces, most of it big gold. Bowers has certainly got the right lead, and we hope he will "stay with it."

The Prattville vote was not counted owing to the fact that the election board sent up all the returns in the ballot-case. Under the law that can only be opened by a Court, and that only in the event of a contest.

Rockwell and Goke, while prospecting up on Rock creek the other day, came across five cinnamon bears, three old ones and two cubs. One was black and the balance the usual color. Having no arms they concluded that the bear didn't belong to them so they let them run.

On Monday last, about 4 o'clock, a Cornish miner named Henry Gerran, was killed in the Plumas, Eureka mine. He was standing near the top of a rock-shute, when a timber gave way, knocking him down. He fell one hundred and fifty feet, crushing the life out of him instantly. Gerran had a young wife at Eureka, but no children.

Steadily Improving.

Reno continues to improve steadily, as the days go by. The gaps on Virginia street, between Commercial Row and Second street, are all filled except three lots. Buildings are being erected on two of these, and the work of erecting another on the third will shortly be commenced. Commercial Row, from Sierra to Center streets, will soon present a solid front. The only part of the burnt district that is not being rapidly rebuilt, is the block between Lake and Centre and the block on Plaza, between Virginia and Center streets, and a number of buildings have been put up on them. The only large building that has not, or is not, being rebuilt is the Pollard house. In a little while Reno will look better than it ever did.

Fine Jacks.

There are two very large and very fine-blooded jacks at Hyman & Comstock's stable. They are both fifteen hands in height, and are fine looking animals. They are the property of Mr. McKee, who imported them from Kentucky. They are for sale.

To the Good People of Reno.

Having entered the field with the balance to contend for a share of the public patronage, it would perhaps be well at the start to state our claims to the above. I am not a sufferer by the fire, so claim no sympathy on that score. I believe it's the duty of the good people to give preference to old residents, provided all things are equal, but if Brown asks fifty cents for what Smith is willing to sell for twenty-five, on the grounds that he is lower by thirty-five and wants to get even, the trade will naturally go to the latter. Hence I say we have no claim on the people except on those who may wish to economize. If you wish to buy your wife a fine silk dress by all means go to Emrich. If you want a suit of fine clothes go to friend Nathan's or Abrams', but if you want a "goose yoke," rat trap or jack knife go to Yankee Dodge's, where a dollar will buy a basketful. Recollect goods just as square as though sold over a marble counter. A child that can lay out the names of the articles wanted, can buy just as cheap as an expert. P. S.—Money will be refunded on all goods that do not prove as represented. my27 YANKEE DODGE & CO.
